EASTERN OREGON

NURSERIES.

UNION, OREGON.

UNION, OREGON:
EASTERN OREGON PUBLISHING COMPANY, PRINTERS AND PUBLISHERS.
1895.

THE EASTERN OREGON NURSERIES, UNION, OREGON.

WHOLESALE AND RETAIL.

To Our Friends and Patrons.

WITH the issue of this Catalogue, we wish to express our thanks for the liberal patronage of the past and by honorable dealing and strict attention to business we hope to merit the favors of all old and many new customers. We aim to handle all stock in the best possible manner, realizing that GOOD STOCK, WELL DUG AND PACKED, is the best advertisement we can have. Our stock is large and our assortment is one of the best in the Northwest. Our prices are very low for good, first-class, healthy stock, properly grown and true to name.

Our nursery has been officially inspected and pronounced healthy and free from insect pests.

Our Guarantee.

While we use the greatest care to have all trees and plants true to label, we will, on proper proof, replace all that prove untrue to name, free of charge, or refund the amount paid, but in no case, will we be liable for any sum greater than that received for such trees or plants.

Respectfully yours,

EASTERN OREGON NURSERIES.

Directions for Ordering.

Order early, as it insures orders being filled more completely. Orders are filled in rotation.

When out of varieties ordered, we substitute others of equal or greater value unless instructed to the contrary. Write name and address plainly, giving name of postoffice and express office. Give full directions as to shipping, whether by express or freight. After goods are delivered at station or express office, they will be at the risk of purchaser. Any mistake of ours promptly rectified, but no claims for mistakes or errors will be allowed unless made within ten days from receipt of goods.

Terms are cash unless otherwise agreed upon. Send money

by bank draft, money order or registered letter. We make no charge for boxing or baling trees and plants or for cartage to station or express office.

Notes on Planting.

The best authorities say, "plant small trees." In our own experience we also say it. Trees three to five feet in height are better supplied with fibrous roots, more of the roots are saved in digging, and such trees are checked less in transplanting. In fact these medium sized trees dig, pack, ship and plant better and come into bearing earlier than larger trees. Also the first cost is considerable less. Many people want large trees and then blame the nurseryman for their not growing. Do not plant any tree in sod or in an old orchard. Plant in well prepared land a trifle deeper than they stood in nursery and leaning slightly to the southwest. Cultivate as thoroughly as you do your garden, for say five years and then seed to clover. Trees cared for in this way will always pay and pay well. In all cases cut back trees severely and set very firmly, leaving a mulch of one or two inches of loose soil around the tree.

A New Cherry!

Grande Ronde.

Price, trees 3 to 5 feet, \$1.00 each, 6 for \$5.00.

Originated at Cove, Oregon, some years since. Tree a good grower, healthy, hardy and productive. Fruit large, averaging size of Tartarian, ripening about with May Duke. Color, jet black, meaty, firm, very rich, and fine quality.

Pronounced by good judges to be the best early shipping cherry. We own the entire stock of this magnificent cherry and trees can be had only of us.

Read a few of the many testimonials we have received from the best authorities in the United States.

Fort Valley, Ga. July 15, 1895.

Yours of the 6th also sample cherries received at the Connecticut office and re-mailed to me here. Cherries arrived in *perfect order* after their two long trips and it certainly is the most promising early shipping cherry I have yet seen.

(Signed.) J. H. HALE.

Louisiana, Mo., July 11, 1895.

We thank you for your kind favor of July 6th. Cherries received yesterday, perfect order. Very fine quality for such a firm fleshed sort. Should be very valuable as a shipping cherry from all the Coast cherry regions.

(Signed.) STARK BROS. NURSERIES & ORCHARDS CO.

Per W. P. STARK, Secy. & Treas.

Bloomington, Ill., July 11, 1895.

* * * Fruit resembling the Tartarian, flavor exquisite. Being hardy, an annual bearer and earlier than the Tartarian, we believe it merits an introduction to the public at large.

(Signed.) F. S. PHOENIX.

Apples.

General Assortment.

Prices: Trees 2 1/2 to 3 1/2 feet, 10 cts. each; per 100, \$8.
